BRANDON ROBINETTE JOINS HMMH AS PRINCIPAL CONSULTANT, FEDERAL PROGRAMS

Burlington, MA (January 09, 2017) – HMMH is pleased to announce that Brandon L. Robinette has joined the firm as Principal Consultant of the Federal Programs Group.

Brandon brings to HMMH a wealth of knowledge in noise modeling, testing, and analysis services in support of our clients' requirements to evaluate effects that aviation operations have on land-use compatibility, the built environment, and public health and welfare. Brandon's expertise includes: noise assessments for DoD Air Installation Compatible Use Zones (AICUZ) and Environmental Impact Analysis under NEPA; military and civilian aircraft operating procedures; environmental and architectural acoustics; and surface transportation noise impact analyses and measurements.

Brandon is an expert in leveraging the capabilities of a wide range of noise-prediction models such as NOISEMAP (NMAP), the Integrated Noise Model (INM), Military Range NOISEMAP (MR_NMAP), the Rotorcraft Noise Model (RNM), the Advanced Acoustics Model (AAM), and Blast Noise (BNOISE) to assess noise in complex and varied operating environments. As the author of technical documents detailing noise data, models, methodologies and results of related analyses, Brandon has provided comprehensive presentations to various stakeholders on studies performed and their application to stakeholder operations, mission, and policy interests.

"I am very excited that Brandon is joining our growing Federal Programs practice," said Kurt M. Hellauer, Director of Federal Programs at HMMH. *"His expertise in aviation noise analysis coupled with his experience in stakeholder engagement and public outreach will further enable HMMH to partner with our Federal clients in the execution of their missions."*

HMMH views the new appointment as a sign of our commitment to being at the forefront of issues facing our Federal clients. As we welcome Brandon, we look forward to the contributions he will make towards leading innovative work in the field and building new client relationships.

Brandon will be based in Denver CO and can be reached at brobinette@hmmh.com or 781.229.0707 ext 3129.

About HMMH

HMMH is an international leader in environmental and transportation planning including noise and vibration control, air quality analysis, airport and airspace planning, and climate and energy solutions. With three offices throughout the country, we serve government and private industry clients with a broad range of innovative and effective solutions. HMMH is certified as a Woman-Owned (WBE) and Disadvantaged Business Enterprise (DBE), and is recognized as an Economically Disadvantaged Women-Owned Small Business (EDWOSB) by the U.S. Small Business Administration.
