HMMH Certified as a WBE and DBE in Massachusetts

Burlington, MA (June 4, 2015) – HMMH is pleased to announce that it has received certification as both a Woman-Owned Business Enterprise (WBE) and a Disadvantaged Business Enterprise (DBE) from the Commonwealth of Massachusetts.

This certification became possible when two of HMMH's executive managers, Mary Ellen Eagan (CEO) and Diana Wasiuk (COO), acquired a controlling stake in HMMH, making the firm a woman-owned business in December 2014. Ms. Eagan and Ms. Wasiuk will continue serving in their current capacities and look forward to a new phase in the life of a company with such rich legacy.

HMMH is also certified as an economically disadvantaged women-owned small business (EDWOSB) with the U.S. Small Business Administration (SBA). W/D/SBE certifications in other states are pending.

We look forward to continuing to serve our clients with our hallmark technical excellence and client satisfaction.

About HMMH

HMMH is an international leader in environmental and capacity planning including noise and vibration control, air quality analysis, airport and airspace planning, and climate and energy solutions. With three offices throughout the country, we serve government and private industry clients with a broad range of innovative and effective solutions. For more information, visit www.hmmh.com.
